

Green and Brown cards template

A couple of sentences describing a health or nutrition situation experienced in the village or family. These will be village or culture specific.

Brown cards describe a current poor health or nutrition practice that results in sickness or poor health conditions.

Green cards describe a good health or nutrition practice that results in healthy and well nourished families. These practices are what should be adopted in the village.

Make 13 brown cards and 14 green cards (or as many as are needed to cover the main problems encountered in the village.)

Go back (1, 2, 3) spaces (brown cards)

Go forward (1, 2, 3) spaces (green cards)
